## **Alma Property Partners acquires industrial properties in southern Sweden**

***Alma Property Partners has acquired a portfolio of four industrial and warehouse assets comprising approximately 40,000 sqm in southern Sweden***

The transaction includes four properties located in Jönköping, Lidköping, Götene and Olofström with a total lettable area of approximately 40,000 sqm. The seller of the properties is a company within the Nävrabäcken group. The properties are fully leased with newly signed 15-year leases. Alma took possession of the properties on October 3, 2016.

“The facilities in Jönköping, Lidköping and Götene are modern production and warehouse properties that are well suited to the tenants’ operations. The transaction fits within Alma’s industrial and logistics portfolio very well because of the long leases and stable cash flow. We hope to continue developing the properties and the relationships with the tenants going forward,” says Christofer Lundquist of Alma Property Partners.

The acquisition was made by the subsidiary Sydsvenska Industrihus AB which Alma owns and operates in cooperation with P&E Fastighetspartner in Kalmar. Tenant & Partner advised the seller in the transaction.
